Meeting Summary

Welcome and Introductions

Attendees: Gretchen Avery, Rachael Ratliff, Shannon Moody, Linda Handorf, Heather Barnes, and Julie Powell

Community Resource Information – Update

- Shannon gave an overview of the last meeting summary. Julie and other panel members discussed the Centerstone and JCPCS elementary schools partnership and how the process works with educational neglect. She reports that the purpose is to engage families with resources prior to referrals to the Cabinet. It was noted that educational neglect is based on attendance not behavior issues. Once the family meeting occurs other underlying issues (domestic violence, behavior, etc.) are often brought to the table to receive services. If the family has an active DCBS worker, the meeting will not occur but they can still receive services from their worker.
- The panel discussed the impact staffing issues has on the referral/intake process with the Cabinet and the referral to community resources.
- The panel discussed possibly focusing on non-educational neglect resources. Linda engaged the panel in discussion regarding substance abuse resources.
- Shannon discussed the result of the survey assisting in determining what resources are needed.
- Shannon discussed keeping watch on the proposed budget changes and how they will impact available resources.
